Why haven't I heard from you?

I am writing to you from Burgdorf near Hanover. That's where I ended up escaping from a knife attack (criminal complaint dated February 10, 2023, NPP 72508/2023) and the foul methods of my Funchal landlord RB Living. The Funchal judiciary has received several requests and criminal charges. But so far I only have a case number for the knife attack at Caminho do Arieiro de Baixo 5, Sao Martinho. I find that surprising.

What happened to me should also be of legal interest in Madeira. I even asked in vain to protect myself from RB Living's methods. According to the tax authority, this also included embezzlement of rent shares, which our landlord was only supposed to forward, and other breaches of the rental agreement.

Everything that happened up to February 10, 2023 is contained in file NPP 72508/2023. Now there is my escape, during which I also stayed in hostels and hotels. I have to be reimbursed for the costs incurred.

May I also point out that you have been asked for administrative assistance by the State Criminal Police Office of Lower Saxony because of the knife attack? I haven't heard from that either, although you have known the address of my lawyer Jan Paysen, Marktstraße 66, 31303 Burgdorf, for a long time.
